

Things That Made More or Less Sense

**Follow-up work for completion after
Redeeming Technology, Session 1.**

To be submitted by 23rd October 2017

From today's talks, readings, discussions, and activities –

- List 3 points that have inspired you, and which relate to what you are doing.
- List 3 points about which you are unsure, or see potential for further discussion.
- Send these to Katy Mok (kytmok@hku.hk) by **Monday 23rd October**.

We will compile all participants' comments and use any recurring themes as the basis of the opening discussion for December's Redeeming Technology Workshop. Your comments will also provide us with helpful feedback on what points need attention in future Workshops.

While future discussions and activities may engage with the topics you raise, we will never attach your name to the comments without your express consent.
