

## Now You See It

**Follow-up work for completion after Redeeming Technology Session 2.  
To be submitted by 15<sup>th</sup> January 2018**

One good thing about reflecting on technology is that you do not have to look very far for examples. Once you are made aware of the issues, you can spot them all around you.

- Pick one example of technology, its design, and its use. Outline how the example you have chosen relates to the issues raised in the first two sessions of Redeeming Technology.
- Send these to Katy Mok ([kytmok@hku.hk](mailto:kytmok@hku.hk)) by **Monday 15<sup>th</sup> January 2018**.

Feel free to select an example of technology from around you, from your work or research, or from media coverage. If you are entirely lacking inspiration for topics to pick, here are some ideas:

### **Weather**

<http://www.bbc.com/news/business-41967241>

### **Truckers**

[https://www.youtube.com/watch?v=G\\_UHknhNbAQ](https://www.youtube.com/watch?v=G_UHknhNbAQ)

### **Toilets**

The Bill and Melinda Gates Foundation set a challenge to Reinvent the Toilet. Two very different approaches to solving problems of sanitation were taken by *The Nanotech Membrane Toilet* and *Community Lead Total Sanitation*. You can see the approaches the respective groups took here:
