# FAITH AND SCIENCE

BRING YOUR LUNCH AND YOUR QUESTIONS!  
FAITH IN DIALOGUE WITH JOSH SWAMIDASS

Dr. Swamidass MD, Ph.D. is an associate professor in the Laboratory and Genomic Medicine Division at Washington University in St Louis. His research focuses on using computational methods solve problems at the intersection of medicine, chemistry, and biology. He is the Faculty Lead for the Translational Bioinformatics Institute for Informatics, which develops machine learning for medical applications at the molecular and cellular level.
