

Homework Questions

Follow-up work for completion after Session 3. To be submitted by 8th March 2019

Consider the following questions and jot down some notes while ideas are fresh in your memory.

- 1) Why may environmental stewardship and sustainable development be a justice issue? Are they related to the Great Commandment and the Great Commission? If so, How?
- 2) When talking about climate change, we tend to focus on *difficulties* and *challenges*. How can we bring the discussion of *opportunities* to the table? What kind of opportunities can we identify, especially from a Christian perspective?
- 3) From *values* to *ethics* to *education* to *practice* to *public participation* to *corporate environmental responsibility* to *policies* to *systems* and *culture*. Where can I see myself contributing to Changes? How do I want to contribute to changes?

Please submit your thoughts to mikeb@hku.hk by **8th March 2019**.

We will compile people's thoughts and feed them into discussions in subsequent sessions.
